OWAIS ABBASI

CKA | CKAD | CKS || Kubestronaut || DevOps Engineer
Karachi Division, Sindh, Pakistan

Summary

Hi, I'm Owais, a DevOps Engineer based in Karachi. My path into tech wasn't a straight line. I started out as a Financial Accountant, and in 2020 an article about artificial intelligence in Dawn caught my attention and wouldn't let go. I bought my first Python course on Udemy, and one thing led to another until I found myself completely changing careers. Since then I've earned a UK Eduqual Level 6 Diploma in AIOps, and I recently passed all five Kubernetes certifications from CNCF, which makes me a Kubestronaut. That one meant a lot to me. Right now I'm looking for an Associate or entry-level DevOps role where I can learn from experienced people, contribute to a real team, and keep growing. If you're hiring, or just want to connect and chat about DevOps, cloud, or career changes, feel free to reach out. I also share what I'm learning here on LinkedIn, so you'll find notes and lessons from my journey in my posts.
